

## Woods Glass Job of the Month November 2002

Thermosash Commercial Ltd and its subsidiary Woods Glass (New Zealand Ltd) have built a major wind tunnel (below) to complete the façade testing on Britomart to meet Arup Façade's specification to test water infiltration for light, medium and heavy rain testing at 10, 15 and 20 metres per second. On completion, the testing facility will be donated to the University of Auckland Engineering Department.

If your requirement is for façade weathering, structural or seismic testing to international standards, then contact our representatives. Thermosash operates the only registered testing facility in New Zealand (right).

Thermosash can carry out testing to the following standards:

- Australia/New Zealand AS/NZ 4284:1995
- New Zealand NZS 4211:1985
- Australian AS 4420:1996
- American ASTM E283, E330, E331, AAMA 1502.7 1981
- Singaporean SS 212:1979
- British BS4315, BS5368, BS6375

For *your* ♦ glass maintenance/inspection work ♦ total vision systems ♦ commercial glazing and re-glazing ♦ structural silicone glazing ♦ internal glass partitions ♦ Grade "A" laminated glass ♦ mirrors, contact the professionals:-
