

**Woods Glass  
Job of the Month  
September 2002**

Frameless, total vision doors with Dorma hardware and integrated security has been installed into a concrete tunnel to form the entrance to Telecom's Information & Technology exhibition at Auckland's Viaduct Basin.

Reynobond® composite aluminium panelling (manufactured by Reynolds Metals Co, USA) has been utilised to house the security control devices.

A versatile cladding product, Reynobond® (because of its high strength-to-weight ratio) is also suitable for curves, reverse curves, fascias, signage, spandrel panels, soffits, beam wraps, ceilings, claddings and column covers.

**Architect:**  
JasMax Architects Ltd

**Contractor:**  
Fletcher Interiors Limited

**Woods Glass:**  
Total vision doors with  
Dorma hardware

For your ♦ glass maintenance/inspection work ♦ total vision systems ♦ commercial glazing & re-glazing ♦ structural silicone glazing ♦ internal glass partitions ♦ Grade "A" laminated glass ♦ mirrors, contact the professionals:-
